# WE ALL HAVE THE POWER TO DO GOOD

## RESOURCES

### **Drinking Water**

We have invested in filtered water throughout the Estate so guests can drink with no need to perpetuate the use of plastic bottled water.

### **Rain Water**

All rainwater is collected into our 8 water wells and underground reservoir. This is reused for to keep our Estate garden green & fresh .

### **Solar panels**

We have invested in solar panels to help reduce our carbon footprint. These help heat the hot water system on our Estate.

### **Heat Exchanger**

Our heated pool functions through a heat exchanger, which uses the outdoor air to reduce the consumption of power.

### **Recycling**

We recycle all plant waste where possible in order to re-purpose this back into the land as mulch.

### **Olive Oil**

We produce our own olive oil each year from the harvest of our 400 olive trees. Some of our trees go back over 100 years old.

Our commitment to sourcing food as locally as possible starts with our own grown organic fruit and vegetables.

### **Fruit**

Each year we grow apricots, plums, lemons, lime, peaches, apples, pears, grapes and wait until you see our huge fig tree.

### **Vegetables**

Our purpose built vegetable garden fosters the following each year: rocket, spinach, salads, cherry tomatoes, large tomatoes, artichokes, green beans, onions, herbs, asparagus, aubergine, courgettes among other items.

## SUSTAINABLE FOOD SOURCES

## SUPPORTING THE COMMUNITY

### **Community Spirit**

We are a pivotal part of the community and sit on the key groups that help shape the future of the local area.

### **Locally sourced.**

Less distance. Less impact.

Wherever possible, we purchase products that are organic, in season and locally sourced.

We have fostered great relationships with local independent owners - whether it's fresh pasta, breads, artisanal gelato, fruits, vegetables, meats or fish - we buy our direct from the locals.

### **Local artisans**

We completely redesigned and rebuilt Oliveto Estate using local craftsmen, joiners, builders, painters, gardeners, architects and planners - further supporting the community.

### **Experience the real Italy.**

We are passionate about helping our guests experience what it is like to really live, eat and enjoy life like a local here in Le Marche, we have spent many years crafting our best experiences to ensure that our guests feel like they discover, learn, create and really taste the real Italy. They won't see a 'polished' version, but a truly authentic one.

### **Supporting our local partners**

We are equally passionate about helping grow the local economy by partnering with best local producers and help them tailor their experiences so they too can create sustainable income source, all year round.

### **Meet the artisans**
